

Elastomeric Material Solutions | One Technology Drive | Rogers, CT 06263 USA | Office 860.928.3622 | Fax 860.928.7843

Dear Valued Customer,

Thank you for your continued partnership and business over the years. We look forward to many more exciting challenges and opportunities for mutual growth.

While we are sensitive to your need to maintain cost structure, many of our expenses associated with running our business have greatly increased over the past year. Continued shifts in the supply and demand for key raw materials associated with the urethane reaction have been impacted on a global scale resulting in significant price increases throughout 2018 and are expected to increase into 2019.

Therefore, as these trends continue into 2019, Rogers must implement a targeted price increase of up to 4% for certain PORON® polyurethane materials beginning on February 1, 2019. Please note not all materials will be seeing a price increase. New pricing pages reflecting all adjustments to materials will be available in January 2019.

Should you have any questions regarding this price increase, please feel free to contact your local Rogers Sales Engineer.
